RESOURCE & EXPERTISE IN LIFE SCIENCES

TISAX “QUICK CHECK”.

MAKE YOUR COMPANY TISAX-READY.

In the automotive industry, highly sensitive data is exchanged between manufacturers, suppliers and service providers during product development.

To make this data secure, the automotive industry has created the Trusted Information Security Assessment Exchange.

TISAX is the uniform standard for information security, based on the international standard ISO/IEC 27001.

WIE WIR SIE TISAX-READY MACHEN.

Our "Quick Check TISAX" offers companies an analysis in which all weak points are identified and eliminated. The TISAX Quick Check determines the status quo on the basis of the TISAX requirements catalog. The gaps and weak points are eliminated in cooperation with the customer and thus a successful certification is prepared.

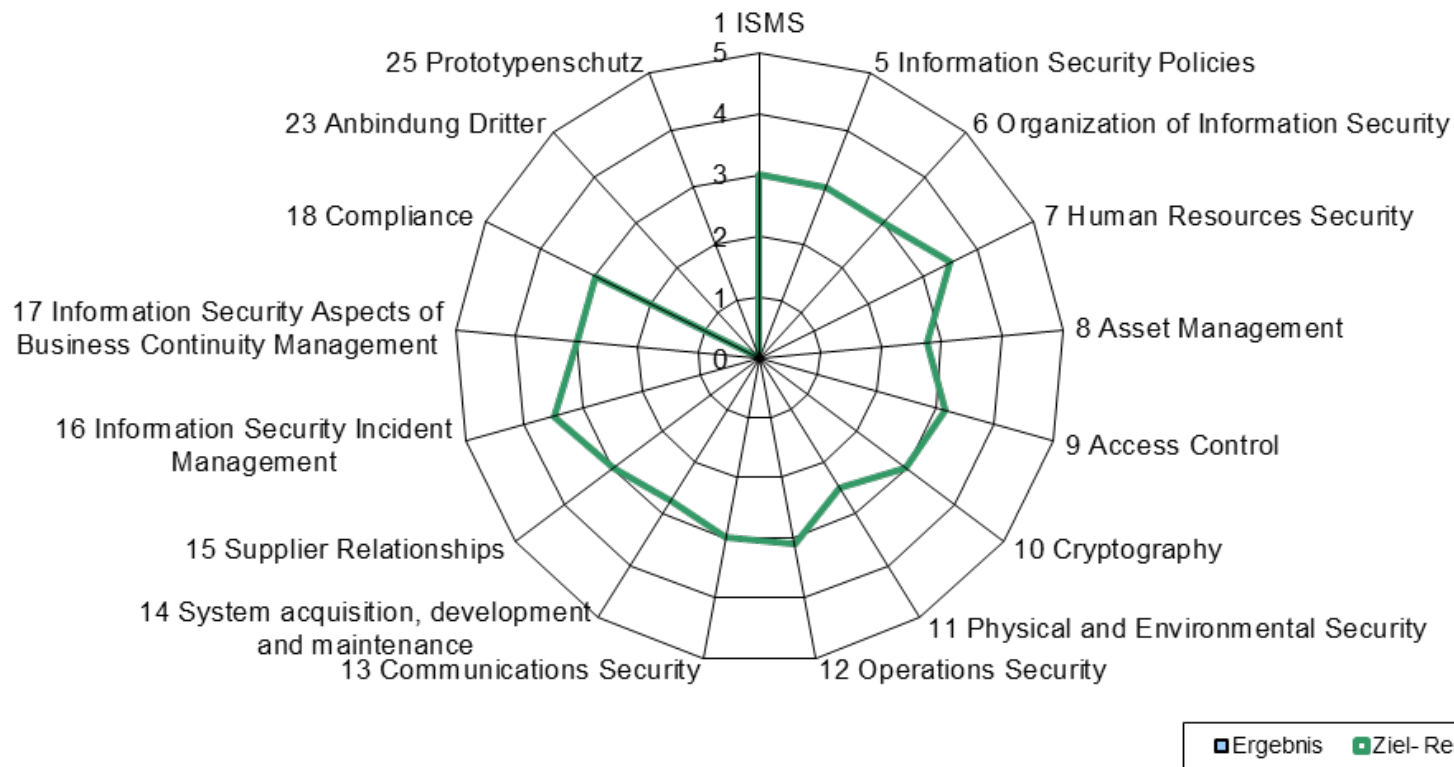

- We want to find a pragmatic and suitable solution for each client's organization.
- Inventory and gap analysis
- Planning and implementation scenario

PROCESS. TISAX QUICK CHECK.

TISAX CATEGORIES.
